Price:

30.00 \$

Color: Black

Material: Stretch Satin

Size: S (based on the following scale from the original place of acquisition (4-6)S bust: 34 , waist: 26.5, hips: 36.5). I usually wear a size 4 in normal clothes, and this fit pretty snugly.

This bridesmaid dress was bought for a friends wedding this past summer, I wore it only once. The dress was washed since and has been hanging in my closet.

The dress is pretty snug but not uncomfortable being strapless and all, as one would expect of a mermaid style dress. There is a built in bust so there is no need to an additional bra. No alterations were done to how the dress looked when I got it originally. The zipper handle from the manufacturer is quite small and takes some work so might need a second person to help put on the dress.

It has a metallic brooch painted gold that is pinned to the side of the dress.
