Vulcan range. 6 burner area is 36 inches wide, the flat top area is 24 inches wide. Total measurements, 60 inches wide, 28 inches deep, and 60 inches high. This range has spent it's entire life in a church kitchen and is in great condition for its age, (made in the late 60's?). Everything works. We are renovating the church kitchen and are replacing this Vulcan with 2 smaller ranges. You must remove. \$650 OBO
